Chain hoist equipment (Echternach)

Main Window

Podium Control (Echternach)

## Theater Applications

For years we have been realizing the widest possible range of control tasks in theatre and stage technology with our products for examples (above von left to right) in the Trifolion Echternach, in St. Petersburg, in the Konzerthaus Berlin, in the Tonhalle Düsseldorf, and in the Berne Casino.

zub controls offer for machine hoists adjustable speeds with wide control range, precise positioning, and carry heavy loads.

The high safety standards for upper machinery are fulfilled by the zub controls up to SIL 3.

## Applikations samples
